Description : Description du produitA previous National Director of Education for Evelyn Wood Reading Dynamics presents his do-it-yourself program for increasing reading speed and boosting comprehension. "Speed reading is one of the truly useful educational ideas of the last few years, and this book can be the least expensive and most efficient way you can learn it." --William Proxmire, United States Senator The perfect answer to today's information explosion, Peter Kump's rapid reading method has already helped thousands of people to read up to eight times faster, with better concentration and retention. This program brings together the best of what classroom speed reading courses have to offer, and distills fundamental principles and skills that can be learned at home with the help of the drills and exercises provided. And because it lets readers choose their own material and set their own pace, it's the ideal method for busy people juggling a full schedule. Breakthrough Rapid Reading makes conquering information overload a reality. So whether it's cutting down on that backlog of business reports and technical matter or scaling that mountain of newspapers and leisure reading, getting up to speed is only a matter of time and practice.
